

MISSION BRIEFING

TO: Liberator Operative 407

FROM: Mission Control

RE: Liberator Mission No. 342X.1

URGENT — TOP PRIORITY

Proceed at once to planet Hazbal where hostile forces have siezed control of Planetary Defence System.

IDENTITY OF HOSTILE FORCES — HellRaiser

EQUIPMENT — Standard issue battle-suit, Mk III
Jimson Laser Pistol
Wasp Battle Cruiser

DIRECTIVES — Clear DefSecs 3, 4 and 5 and the surrounding airspace.

EXPECTED RESISTANCE — HellRaiser Battlebots. HellRaiser

WARNING — Hazbal Planetary Defences will also be operational and must be destroyed.

MISSION DATA

Defsec Areas: To clear installation of hostile forces. To reach ship necessary to clear airspace.

Resistance: HellRaiser battlebots, HellRaiser scouts, other unknown hostile fighting machines.

Remember: All installations have teleport systems and can be used to outwit the HellRaisers.

AIRSPACE

Objective: To clear Airspace of HellRaiser Fighters and successfully enter next defense installation.

Resistance: HellRaiser fighter craft, Planetary defence system.

Remember: You are flying low over the planets surface. Avoid all large structures. Some of the defence system is concealed beneath silos; these can only be destroyed by air to ground weapons.

2 PLAYER OPTION

Mission control have also called upon a fellow liberator. He may assist you if you require.

If two liberators undertake the mission they must both complete the immediate task before proceeding further.
